

Karen V. (née Ash) Root

Department of Biological Sciences, Bowling Green State University
Bowling Green, OH 43403-0208
Phone: (419) 372-8559; Fax: (419) 372-2024
kvroot@bgsu.edu; karenroot.net

EDUCATION

1996 Ph.D. in Biological Sciences, Florida Institute of Technology, Melbourne, FL.
1989 M.S. in Biology, University of Michigan, Ann Arbor, MI.
1987 B.S. in Biology, University of Minnesota, Twin Cities, MN.

RESEARCH

2008-2016 DEPARTMENT OF BIOLOGICAL SCIENCES GRADUATE COORDINATOR
2007-Present ASSOCIATE PROFESSOR
2002-2007 ASSISTANT PROFESSOR, , DEPT. OF BIOLOGICAL SCIENCES, BOWLING GREEN STATE UNIVERSITY, BOWLING GREEN, OH.
Research, teaching and service in conservation biology, landscape ecology and population biology.

Grants:

PI The Nature Conservancy Grant (Co-PI: Amanda Martin): (2/2017-7/2018)
Oak Openings Region Biodiversity Model \$40,000
Develop an updated land cover map for the Oak Openings Region; and build habitat models for a set of species that serve as indicators of five critical ecosystems.

PI USDA Forest Service Joint Venture Agreement (Co-PI: Rachel Kappler) I 6-JV-11242316-099: Tree Health and Demographic Analysis of Ash Tree Species Impacted by the Invasive Pest Agrilus Planipennis (6/2016-6/2021)
\$34,600
Focus on the population dynamics and the future of ash tree (*Fraxinus* spp.) persistence in a natural floodplain setting in the face of threats such as the Emerald Ash Borer and subsequent recovery.

PI NSF DDIG Grant (Co-PI: Jessica Sewald) DEB-111048: A multidisciplinary approach to the conservation of bat species in the Oak Openings Region (6/2011-5/2012)
\$15,000
Using ecological surveys, predictive models and citizen science to examine the factors that affect bat species in a highly fragmented but important ecological region.

PI Bat Conservation International: A multidisciplinary approach to the conservation of bat species in the Oak Opening Region: Habitat and human dimensions (5/2010-4/2011)
\$2,092
Identifying the bat species assemblage in the Oak Openings Region through acoustic and mist nest surveys and assessing influencing factors.

PI Florida Fish and Wildlife Conservation Commission: Risk Assessment for Eight Species (12/08-02/09)
\$2,300
Address the risks of eight native Florida species utilizing demographic, population and spatial data to identify critical factors limiting these species and influencing its viability.

- PI Florida Fish and Wildlife Conservation Commission Grant: Habitat Suitability Assessment for the Crested Caracara* (8/05-8/07; \$25,000)
 In collaboration with Dr. Joan Morrison (Trinity College), characterize the currently occupied habitat for Audubon's Crested Caracara and develop a predictive model that will be applicable across its range in Florida.
- PI U. S. Fish & Wildlife Service Grant: Risk Assessment for Audubon's Crested Caracara, Caracara cheriway, in Florida* (05/05-09/07; \$89,000)
 Address several critical research needs identified in the recovery plan for the caracara: demographic data for this species will be collated and analyzed, a PVA will be developed, research needs will be identified, and we will develop a better understanding of the critical factors limiting this species and influencing its viability.
- PI Ohio Department of Natural Resources Grant: Identifying Critical Ecological Requirements Of Rare Turtle Species (Co-PI: Hillary Harms)* (05/05-07/06; \$24,460)
 Determine the ecological requirements of a rare turtle species using a review of the literature, field sampling, and population modeling to determine variables most critical to long-term turtle viability.
- PI Ohio Department of Natural Resources Grant: Consequences of a Management Strategy for the Endangered Karner Blue Butterfly, Lycaeides melissa samuelis (Co-PI: Bradley Pickens)* (05/05-07/06; \$19,067; 05/06-07/07; \$7,242)
 Behavioral observations of female Karners will focus on where egg laying occurs and examine the direct impact of current management on Karner Blue populations, as well as, examine the potential impacts of mutualistic ants on Karner populations.
- PI Ohio Department of Natural Resources Grant: Predicting the Occurrence of Rare Amphibian Species in Ohio (Co-PI: Gregory Lipps)* (5/04-06/05; \$23,000)
 Survey the range of the green salamander (*Aneides aeneus*), develop methodology for predicting its occurrence, verify the model with field surveys and make recommendations for the conservation and management of this species.
- PI Florida Fish and Wildlife Conservation Commission Grant: Risk Assessment for a Focal Set of Rare and Imperiled Wildlife in Florida* (01/04-09/07; \$35,000; 05/06-09/07; \$5,600)
 Develop spatially explicit risk assessment models for 54 species of conservation concern and make recommendations for ensuring long-term viability of these species in Florida as part of a state-wide conservation planning effort. 2nd phase includes 7 additional species' risk assessments.

1996-2002

- RESEARCH ASSOCIATE, APPLIED BIOMATHEMATICS
 Research in conservation biology, risk assessment and population biology.
P.I. Environmental Science web course (10/00-6/02)
 Editor, author and designer for Internet-based, early

undergraduate, environmental science laboratory course that includes Java applets and Web pages.

Population viability analysis and extinction risk assessment for:

- *Florida Panther in South Florida
- *Hardhead in Sierra Nevada Rivers, California
- *Desert Tortoise in Mojave Desert, California
- *Shortnose Sturgeon in Connecticut River
- *Three Redhorse Suckers in Muskingum River, OH
- *Red-cockaded Woodpecker in Louisiana
- *Blueback Herring, Threadfin Shad, Black Crappie, Striped and Hybrid Bass in SC and GA

Multispecies assessment for South Florida (11/00-6/02)

Spatially-explicit analyses for recovery of Federally listed species for the Multispecies Ecosystem Recovery Implementation Team (MERIT) of U. S. Fish and Wildlife Service.

Grants:

P.I. for NSF SBIR Phase II Grant: Multispecies Ecological Valuation and Landscape Management (4/00-4/02; \$400,000;)

Development of new methods and software for multispecies conservation incorporating risk of extinction and the habitat needs for suites of species. Includes several case studies.

P.I. for Dept. of Education SBIR Phase I Grant: An Interdisciplinary Method of Teaching Ecology in High School Science and Mathematics Classes (9/99-3/00; \$50,000;)

Wrote short course on Conservation Biology for high school students, that utilizes the Internet and custom software.

P.I. for NSF SBIR Phase I Grant: Multispecies Ecological Valuation and Landscape Management (1/99-7/99; \$100,000;)

Development of new methods and software for multispecies conservation incorporating risk of extinction and the habitat needs for suites of species. Utilized California GAP Analysis Project data for feasibility testing.

1993-1996

DISSERTATION RESEARCH

Population Viability Analysis for the Florida Scrub-Jay (Aphelocoma coerulescens) in Brevard County, Florida.

(Florida Institute of Technology, Melbourne; advisor: Dr. Hilary Swain)

1994-1995

GRADUATE RESEARCH ASSISTANT

Designed G.I.S. maps of scrub habitats, of habitat quality, and of potential for restoration by fire and a habitat quality index for the Scrub Habitat Conservation and Development Plan of Brevard County, FL for the Florida scrub-jay.

(Florida Institute of Technology, Melbourne; advisor: Dr. Hilary Swain)

1990 - 1993

RESEARCH ASSOCIATE IN INTERNAL MEDICINE/G.I.

Supervised a research assistant, designed experiments, and prepared presentations and publications for cellular and molecular research on ion transport using fluorescent markers in endocytic vesicles.

(University of Michigan Medical Center, Ann Arbor; Dr. Rebecca Van Dyke)

1989 - 1990 RESEARCH ASSISTANT IN INTERNAL MEDICINE/G.I.
Conducted cellular and molecular research on ion transport using fluorescent markers in endocytic vesicles and *wrote progress reports* for NIH Grant.
 (University of Michigan Medical Center, Ann Arbor; Dr. Rebecca Van Dyke)

1987 UNDERGRADUATE HONORS THESIS
Observational study on development of a social hierarchy of timber wolves in Minnesota Zoological Gardens.
 (University of Minnesota, St. Paul; advisor: Dr. Anne Pusey)

TEACHING

Course	Level	Years	Type of Course	Location
Undergraduate				
Wildlife Biology	4300	6	Lecture	Bowling Green State University (BGSU)
Conservation Biology	4100	16	Lecture	BGSU
Landscape Ecology	4160	8	Lecture	BGSU
Concepts in Biology I	2040	1	Lecture	BGSU
Concepts in Biology I-- Honors	2040H	1	Lecture & Recitation	BGSU
Biology Today	2000	1	Lecture	BGSU
Evolution	400	1	Lecture	Florida Institute of Technology (FTech)
Introductory Biology (majors)	200	1	Lecture & Laboratory	FTech
	200	3	Laboratory	FTech
	200	2	Laboratory	Univ of Michigan (UM)
Introductory Biology (non-majors)	100	1	Lab/Recitation	(UM)
Graduate				
Fundamentals of Ecology	6510	6	Lecture & Recitation	BGSU
Wildlife Biology	5300	6	Lecture	BGSU
Conservation Biology	5420	16	Lecture	BGSU
Landscape Ecology	5240	8	Lecture	BGSU
Seminars in Biology	7800	16	Seminar	BGSU

Other Teaching		
Topic	Type	Location
Short course on ecological modeling	Workshop	Army Corps of Engineers, Vicksburg, MS.
Tools for Population Viability Analysis	Workshop	Annual Meeting for Society for Conservation Biology, Missoula, MT
Tools for Population Viability Analysis	Workshop	Annual Meeting for Society for Conservation Biology, College Park,

		MD
Tools for ecological and human health risk analyses	Workshop (2-day)	Applied Biomathematics, Setauket, NY

CURRICULUM DEVELOPMENT

NEW UNDERGRADUATE COURSES

Biology 4300: **Wildlife Biology** (3 credits) offered Fall semesters.

Introduction to the evolution, ecology and conservation of wildlife species, with an emphasis on tetrapods. Course includes lectures, hands-on exercises, class discussions, critical writing and argument and an individual project.

Biology 4100: **Conservation Biology in Practice** (3 credits) offered each Spring semester.

The use of the basic ecological principles as a basis for conservation of biological diversity. Focus on the underlying ecological concepts, current techniques utilized in the field, problem-solving approaches, and the issues encountered when trying to conserve natural systems in a human-dominated landscape. Course includes hands-on exercises, class discussions, critical writing and argument and lectures.

Biology 4160: **Landscape Ecology** (3 credits) offered Fall semesters.

Overview of the interaction between spatial pattern and ecological processes, especially the causes and consequences of spatial heterogeneity across a range of scales. Focus on the underlying ecological concepts, current techniques utilized in the field, and problem-solving approaches. Course includes hands-on exercises, class discussions, critical writing and argument and lectures.

NEW GRADUATE COURSES/SEMINARS

Biology 6510: **Fundamentals of Ecology** (3 credits) offered each Spring semester.

Overview of the major topics in ecology, evolution and conservation biology: evolutionary ecology, behavioral ecology, population biology, species interactions, communities and diversity, ecosystems and functioning, issues of scale and heterogeneity and ecological applications. Course includes hands-on exercises, class discussions, critical writing and presentations, and lectures.

Biology 5300: **Wildlife Biology** (3 credits) offered Fall semesters.

Taught with Biology 4300 as described above but with additional activities, assignments and exam questions for the graduate students.

Biology 5420: **Conservation Biology in Practice** (3 credits) offered each Spring semester.

Taught with Biology 4100 as described above but with additional activities, assignments and exam questions for the graduate students.

Biology 5240: **Landscape Ecology** (3 credits) offered Fall semesters.

Taught with Biology 4160 as described above but with additional activities, assignments and exam questions for the graduate students.

Biology 7800: **Priorities in Conservation Biology** (1 credit)

Graduate seminar on priority research questions in Conservation Biology in a student-led discussion format.

Biology 7800: **Population Viability Analysis** (2 credits)

Graduate seminar on the basics of Population Viability Analysis using hands-on exercises, discussions of the primary literature and lectures.

Biology 7800: **Behavior and Conservation** (2 credits)

Graduate seminar on the application of behavioral ecology methods to conservation biology, based on primary literature, in a student-led discussion format.

Biology 7800: **Reserve Design** (2 credits)

Graduate seminar on the reserve design and planning based on primary literature, including hands-on exercises, class projects and discussions.

Biology 7800: Conservation Modeling (1 credit)

Graduate seminar on the techniques used in conservation biology especially Population Viability Analysis, Patch Modeling, Landscape Analysis and Habitat Suitability Analysis. Students discuss the primary literature and work with real-data sets to complete several analyses.

Biology 7800: Applied Population Ecology (2 credits)

Graduate seminar on the techniques used in demographic modeling and Population Viability Analysis. Students discuss the primary literature and work with real-data sets to complete several analyses.

Biology 7800: Conservation Behavior (1 credit)

Graduate seminar on the application of behavioral ecology methods to conservation biology, based on Primer of Conservation Behavior by Blumstein and Esteban Fernandez-Juricic, in a student-led discussion format.

Biology 7800: Advanced Ecology and Evolution (2 credits)

Graduate seminar on topics in ecology, evolution and conservation biology based on a textbook (An Introduction to Methods & Models in Ecology, Evolution, & Conservation Biology by S. Braude and B. Low) and primary literature and including hands-on exercises, class projects and discussions.

Biology 7800: Applied Landscape Ecology (2 credits)

Graduate seminar on the techniques used in spatial analysis, including patch metrics, habitat modeling, multivariate analyses. Students discuss the primary literature and work with real-data sets to complete several analyses using ArcGIS, Fragstats, Maxent and other software.

ADVISING AND STUDENT COMMITTEES

Undergraduate Students

- 2008-2009 Primary advisor for 27 undergraduates in the Ecology and Conservation Biology specialization
- 2009-2010 Advisor for Jennifer Chaffin, University Honors Thesis
- 2010-2013 Advisor for Christine Whorton, Biology Honors Thesis

-
- November 2008 ANNUAL BIOLOGICAL SCIENCES DEPARTMENTAL RESEARCH RETREAT, BOWLING GREEN, OH
 Kappler**, R. and K. V. Root. Local & landscape effects of White-footed Mice seed predation upon Wild Lupine.
 Kuntz**, A. and K. V. Root. Deer me! : Assessing the effects of white-tailed deer on the black oak/ lupine barren.
 Safron*, R., H. M. Harms**, and K. V. Root. Population Ecology of Spotted Turtles, *Clemmys guttata*, in NW Ohio.
- November 2008 THE WILDLIFE SOCIETY ANNUAL MEETING, MIAMI, FL
 Kappler**, R. and K. V. Root. Local & Landscape Effects of White-footed Mice Seed Predation upon Wild Lupine.
 Kuntz**, A. and K. V. Root. Deer me! : Assessing the effects of white-tailed deer on the black oak/ lupine barren.

October 2008 (Invited Keynote)	2008 IOWA CONSERVATION SYMPOSIUM, AMES, IA. Root, K. V. A Multispecies Approach for Large-Scale Management and Conservation in a Heterogeneous Landscape.
October 2007	NATURAL AREAS ASSOCIATION ANNUAL MEETING, CLEVELAND, OH. Coulter**, M. and K. V. Root. Determining Lark Sparrow breeding habitat requirements and success to inform sand barren restoration. Harms**, H. and K. V. Root. Assessing viability and identifying critical environmental variables and genetic structure of a rare freshwater turtle. Root, K. V. Large-scale conservation planning using spatially-explicit multispecies models in Florida. Schetter**, T., J. F. Jaeger, S. R. Abella, and K. V. Root. An assessment of the conservation status of Ohio's Oak Openings Region using remotely sensed data.
September 2007	JOINT CONFERENCE OF THE RAPTOR RESEARCH FOUNDATION AND THE HAWK MIGRATION ASSOCIATION OF NORTH AMERICA, ALLENTOWN, PA. Barnes**, J., G. Lipps**, K. Root, and J. Morrison. Predicting habitat distribution for the Crested Caracara (<i>Caracara cheriway</i>) using a spatial modeling approach.
April 2007 (Invited Talk)	DEPARTMENT OF ENVIRONMENTAL SCIENCES, UNIVERSITY OF TOLEDO, OH. Root, K. V. Conserving Rare and Vulnerable Species across Many Scales.
March 2007	MIDWEST ECOLOGY AND EVOLUTION CONFERENCE ANNUAL MEETING, KENT STATE UNIVERSITY, OH. Barnes**, J., G. Lipps**, J. Morrison, and K. V. Root. Predicting habitat: Modeling suitable habitat for the Crested Caracara in Florida. Coulter**, M. and K. V. Root. Investigating Effects of Plant Invasions on Habitat Selection: A Proposal. Harms**, H. and K. V. Root. Assessing Viability and Identifying Critical Ecological Variables of Rare Freshwater Turtles.
January 2007	OAK OPENINGS RESEARCH FORUM, TOLEDO METROPARKS, TOLEDO, OH Harms**, H. and K. V. Root. Assessing Viability and Identifying Critical Ecological Variables and Genetic Structures of Rare Freshwater Turtles. (Invited Talk) Johnston**, C. J., K. V. Root & P. A. Moore. Disturbance-related Resources: The Impacts of Snags on the Fitness of Cavity-nesting Birds. (Invited Talk)
November 2006	ANNUAL BIOLOGICAL SCIENCES DEPARTMENTAL RESEARCH RETREAT, BOWLING GREEN, OH Barnes**, J. and K. V. Root. Linking Population Viability and Spatial Analyses for the Conservation of the Crested Caracara (<i>Caracara cheriway</i>) in Florida. Harms**, H. and K. V. Root and J. Miner. Determining the Critical Ecological Variables for Rare Freshwater Turtles. Johnston**, C., P. Moore, and K. V. Root. Effects of disturbance on the fitness of cavity nesting birds in oak savannas. Root, K. V. A Multispecies Risk Assessment for Rare and Imperiled Species in Florida.
June 2006	SOCIETY FOR CONSERVATION BIOLOGY ANNUAL MEETING, SAN JOSE, CA. Barnes**, J. and K. V. Root. A Multispecies Risk Assessment For Rare and Imperiled Species in Florida.

- Barnes**, J. and K. V. Root. Linking population viability analysis and habitat suitability for the conservation of Audubon's Crested Caracara (*Caracara cheriway*) in Florida. ******Student Award Finalist******
- Harms**, C., D. Pavuk, and K. V. Root. A Multifactorial Characterization of Pond Turtle Habitat.
- Johnston**, C., P. Moore, and K. V. Root. Effects of disturbance on the fitness of cavity nesting birds in oak savannas.
- Pickens**, B. and K. V. Root. Using abundance and behavior as tools for assessing a management strategy for an endangered butterfly.
- Ricci, M., H. Michaels, and K. V. Root. Using conservation GIS to detect oak savannas and oak barrens in northwest Ohio.
- March 2006 MIDWESTERN ECOLOGY AND EVOLUTION CONFERENCE, ST. LOUIS, MO
- Pickens**, B. and K. V. Root. Community Interactions of the Karner Blue Butterfly.
- Ricci, M., H. J. Michaels, and K. V. Root. Using Conservation GIS to Detect Oak Savannas and Oak Barrens in Northwest Ohio.
- March 2006 OHIO REPTILE AND RESEARCH CONSERVATION CONFERENCE, OHIO BIOLOGICAL SOCIETY AND OH DEPARTMENT OF NATURAL RESOURCES, COLUMBUS, OH
- Harms**, C., D. and K. V. Root. Determining the Critical Ecological Variables of Rare Freshwater Turtles.
- January 2006 OAK OPENINGS RESEARCH FORUM, TOLEDO METROPARKS, TOLEDO, OH
- Pickens**, B. and K. V. Root. The Karner Blue Butterfly: "Where do we go from here? (Invited Talk)
- Ricci**, M., H. Michaels, and K. V. Root. Detecting Oak Savannas using Ecological Indicators. (Invited Talk)
-
- November 2005 ANNUAL BIOLOGICAL SCIENCES DEPARTMENTAL RESEARCH RETREAT, BOWLING GREEN, OH
- Harms**, H. and D. Pavuk, K. V. Root and J. Miner. Habitat selection by painted turtles, *Chrysemys picta*, in a fragmented landscape.
- Pickens**, B. and K. V. Root. The Effects of Management and Vegetation on Habitat Quality for the Karner Blue Butterfly, *Lycaeides melissa samuelis*
- Ricci**, Marcus, H. Michaels, and K. V. Root. Detecting Oak Savannas using Ecological Indicators: A Decision Support System for Northwest Ohio Oak Openings.
- November 2005 FOURTH ANNUAL BGSU RESEARCH CONFERENCE, BGSU, BOWLING GREEN, OH
- Pickens**, B. and K. V. Root. The Effects of Management and Vegetation on Habitat Quality for the Karner Blue Butterfly, *Lycaeides melissa samuelis*.
- Ricci, Marcus, H. Michaels, and K. V. Root. Prioritizing oak savanna conservation using ecological indicators.
- October 2005 U. S. FISH AND WILDLIFE SERVICE, CARACARA HABITAT STRATEGY MEETING, VERO BEACH, FL
(Invited Talk)
- Root, K. V. Conserving rare species: Lessons we have learned from the Florida Panther.
- October 2005 DEPARTMENT OF BIOLOGY, COLLEGE OF WOOSTER, WOOSTER, OH
(Invited Talk)
- Root, K. V. Risk assessment for the Audubon's Crested Caracara.

September 2005	NATURAL AREAS ASSOCIATION ANNUAL MEETING, LINCOLN, NB. Ricci**, M., H. Michaels, and K. V. Root. Detecting oak savannas using ecological indicators. ****Best Student Presentation Award****
September 2005	THE WILDLIFE SOCIETY ANNUAL MEETING, MADISON, WI Lipps**, G. and K. V. Root. Finding the small, slimy, and secretive: A framework for predicting the occurrence of rare amphibians.
August 2005	ECOLOGICAL SOCIETY OF AMERICA ANNUAL MEETING, MONTREAL, QUEBEC, CA Barnes**, J. and K. V. Root. Using risk assessment for prioritizing research and conservation for a set of rare and imperiled species in Florida.
July 2005	SOCIETY FOR AMPHIBIANS AND REPTILES ANNUAL MEETING, TAMPA, FL Lipps**, G. and K. V. Root. A framework for predicting the occurrence of rare amphibians: Case study of the green salamander.
November 2004	ANNUAL BIOLOGICAL SCIENCES DEPARTMENTAL RESEARCH RETREAT, BGSU, BOWLING GREEN, OH Barnes**, J. and K. V. Root. Risk assessment for a set of rare and imperiled species in Florida. Harms**, H. and D. Pavuk, K. V. Root and J. Miner. Habitat selection by painted turtles, <i>Chrysemys picta</i> , in a fragmented landscape. Lipps**, G. and K. V. Root. Small, slimy and secretive: predicting the occurrence of rare amphibians. Pickens**, B. and K. V. Root. Consequences of differing management strategies for the endangered Karner Blue Butterfly, <i>Lycaeides melissa samuelis</i> : A Proposal. Ricci**, Marcus, H. Michaels, and K. V. Root. Priotizing oak savanna conservation using ecological indicators.
November 2004	THIRD ANNUAL BGSU RESEARCH CONFERENCE, BGSU, BOWLING GREEN, OH Barnes**, J. and K. V. Root. Risk assessment for a set of rare and imperiled species in Florida. Harms**, H. and D. Pavuk, K. V. Root and J. Miner. Habitat selection by painted turtles, <i>Chrysemys picta</i> , in a fragmented landscape. Lipps**, G. and K. V. Root. Small, slimy and secretive: predicting the occurrence of rare amphibians.
August 2004	SOCIETY FOR CONSERVATION BIOLOGY ANNUAL MEETING, NEW YORK, NY. Martinez**, M and K. V. Root. Predicting Habitat Suitability and Occurrence for Cricket Frogs (<i>Acris crepitans blanchardi</i>) in Northwest Ohio.
March 2004	MIDWEST ECOLOGY AND EVOLUTION CONFERENCE ANNUAL MEETING, UNIVERSITY OF NOTRE DAME, IN. Barnes**, J. R. and K. V. Root. Cryptic burrowers: A preliminary study on the ecology of the American Badger in Northwest Ohio. Martinez**, M. and K. V. Root. Predicting habitat suitability and occurrence for the cricket frog, (<i>Acris crepitans blanchardi</i>), in Northwest Ohio.
January 2004	ANNUAL BIOLOGICAL SCIENCES DEPARTMENTAL RESEARCH RETREAT, BGSU, BOWLING GREEN, OH Barnes**, J. and K.V. Root. Population Dynamics and Ecology of the American Badger, <i>Taxidea taxus</i> : A Proposal. Lipps**, G. and K. V. Root. Small, Slimy, and Secretive: Predicting the Occurrence of Rare Amphibians. Martinez**, M. and K.V. Root. Predicting Habitat Suitability and Occurrence

	for Cricket Frogs (<i>Acris crepitans blanchardi</i>) in Northwest Ohio.
November 2003	SECOND ANNUAL BGSU RESEARCH CONFERENCE, BGSU, BOWLING GREEN, OH Martinez**, M. and K.V. Root. Predicting Habitat Suitability and Occurrence for Cricket Frogs (<i>Acris crepitans blanchardi</i>) in Northwest Ohio.
August 2003	ECOLOGICAL SOCIETY OF AMERICA ANNUAL MEETING, SAVANNAH, GA. Root, K. V. A multispecies approach to ecological assessment and conservation in Florida.
June 2003	SOCIETY FOR CONSERVATION BIOLOGY ANNUAL MEETING, DULUTH, MN. Root, K. V. Assessing the viability and potential effects of management options for the Florida Panther.
November 2002	ANNUAL BIOLOGICAL SCIENCES DEPARTMENTAL RESEARCH RETREAT, BGSU, BOWLING GREEN, OH Root, K. V. Evaluating the viability and potential recovery options for the Florida Panther.
August 2001	ECOLOGICAL SOCIETY OF AMERICA ANNUAL MEETING, MADISON, WI. Root, K. V. Evaluating the viability and potential recovery options for the Florida Panther.
July 2001	SOCIETY FOR CONSERVATION BIOLOGY ANNUAL MEETING, HILO, HA. Root, K. V. A multispecies approach to endangered species conservation and management in South Florida.
September 2000	THE WILDLIFE SOCIETY ANNUAL MEETING, NASHVILLE, TN. Root, K. V. Habitat-based Viability Analysis using RAMAS GIS
August 2000 (Invited Talk)	AMERICAN FISHERIES SOCIETY ANNUAL MEETING, ST. LOUIS, MO. Root, K. V. Ecological risk analysis for the Shortnose Sturgeon populations in the Connecticut River
June 2000	SOCIETY FOR CONSERVATION BIOLOGY ANNUAL MEETING, MISSOULA, MT. Root, K. V.; L. Ginzburg; H. R. Akcakaya; and S. Ferson. Proactive prioritization through risk classification of abundant species
April 2000	ECOLOGICAL SOCIETY OF AMERICA MEETING, ORLANDO, FL. Root, K. V. A multispecies approach to ecological assessment and conservation
August 1999	ECOLOGICAL SOCIETY OF AMERICA ANNUAL MEETING, SPOKANE, WA. Root, K.V. Evaluating the effects of fragmentation and raven predation on a desert tortoise metapopulation
June 1999	SOCIETY FOR CONSERVATION BIOLOGY ANNUAL MEETING, COLLEGE PARK, MD. Root, K. V. A multispecies approach to ecological valuation and landscape management
June 1998 (Invited Talk)	MEETING OF THE ELECTRIC POWER RESEARCH INSTITUTE ADVISORY COMMITTEE, DENVER, CO. Root, K. V. . Ecological risk analysis for the shortnose sturgeon.
June 1997 (Invited Talk)	SHORTNOSE STURGEON WORKSHOP HOSTED BY NORTHEAST UTILITIES AND NATIONAL MARINE FISHERIES SERVICE, MILFORD, CT. Root, K. V. . Ecological risk analysis for the shortnose sturgeon.
August 1996	ECOLOGICAL SOCIETY OF AMERICA/SOCIETY FOR CONSERVATION BIOLOGY ANNUAL MEETING, PROVIDENCE, RI. Root, K.V.; H.M. Swain. How can stage-based models be used to evaluate

	the effects of habitat quality, epidemics and dispersal for the Florida scrub-jay under proposed reserve designs?
July 1995	ECOLOGICAL SOCIETY OF AMERICA ANNUAL MEETING, SNOWBIRD, UT. Root, K.V.; D. R. Breininger; R. Bowman; H.M. Swain. What can population viability analysis (PVA) tell us about the probable success of a spatially explicit reserve design: The Florida Scrub Jay in Brevard County as a case study
June 1995	SOCIETY FOR CONSERVATION BIOLOGY ANNUAL MEETING, FORT COLLINS, CO. Root, K; D. Breininger; R. Bowman; H. Swain. Prognosis for a population: Assessing a reserve design for the Florida Scrub Jay in Brevard County, Florida
May 1995 (Best Student Paper Award)	FLORIDA ACADEMY OF SCIENCES ANNUAL MEETING, TAMPA, FL. Root, K. What are the population consequences for the Florida Scrub Jays in proposed reserve designs in Brevard County, Florida
April 1995 (Invited Talk)	FLORIDA ECOLOGICAL AND EVOLUTIONARY SYMPOSIUM, LAKE PLACID, FL. Root, K. What are the implications of the proposed reserve designs for scrub jay viability in Brevard County, Florida
